The school motto: **Aspire, Succeed, Lead**, captures our aspiration that every student should be ambitious, work hard and achieve success both academically and personally.

Our school values spell out the first word of our motto: 'ASPIRE'.

## ASPIRE School Values

- **Accountability**

Take responsibility for your own actions, behaviour and learning, belongings and surroundings and support others in doing the same.

- **Self-confidence**

Celebrate your individuality and demonstrate the self confidence in your own ability to make the right choices.

- **Perseverance**

Apply yourself to every aspect of school life with positivity and determination to do your very best.

- **Integrity**

Always be truthful and act with kindness, honesty and integrity.

- **Respect**

Treat people with the same levels of respect, courtesy and fairness you would expect from others.

- **Empathy**

Understand and share another person's experiences and emotions.

Through these values, we believe our students will **ASPIRE** to the highest positions, become responsible citizens, and succeed in pursuing their dreams and ambitions.

# Values Characters

In September 2020, we launched a competition for students to design a character that depicted each of our school values:

**A**ccountability, **S**elf-Confidence, **P**erseverance,  
**I**ntegrity, **R**espect and **E**mpathy.

The winning entries are included in this booklet—we are sure you will agree that they are all amazing!

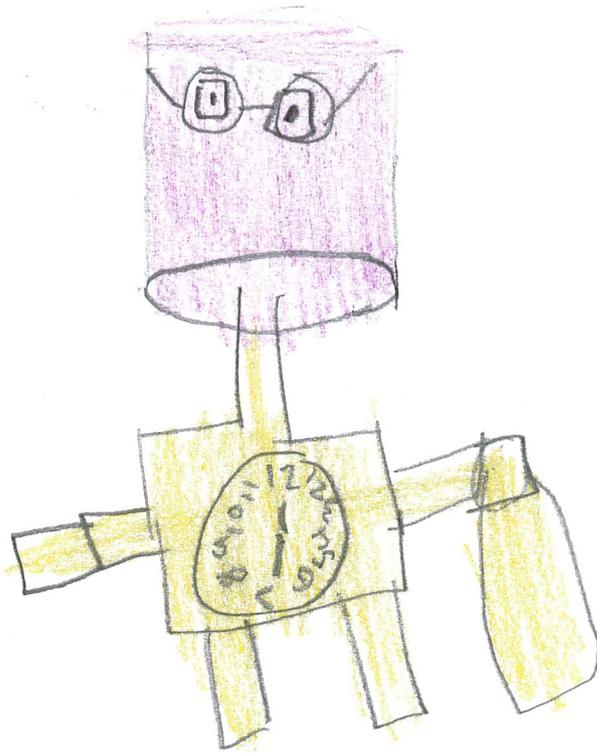

Each of the characters have been developed, given each a name and provided with their own background story.

Mrs Martin and Mrs Poole presented each of the competition winners with a framed picture of their design and the character they had created.

Our students' winning designs have been turned into value characters which are now used on our website and throughout the school.
