

Home Learning 2020

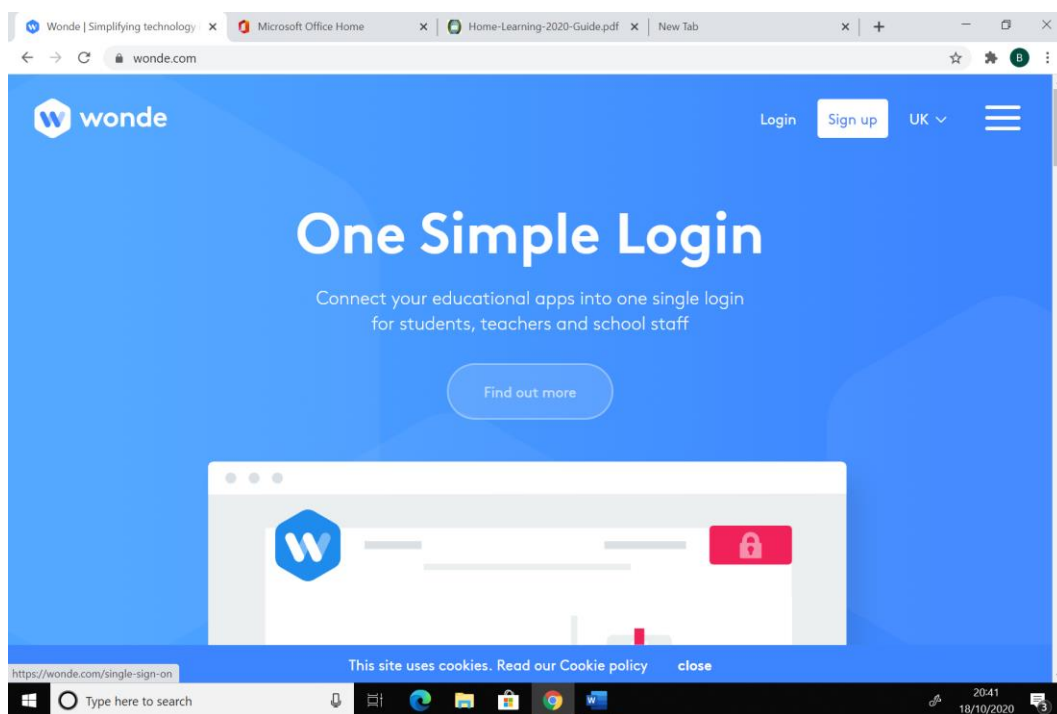

Introduction

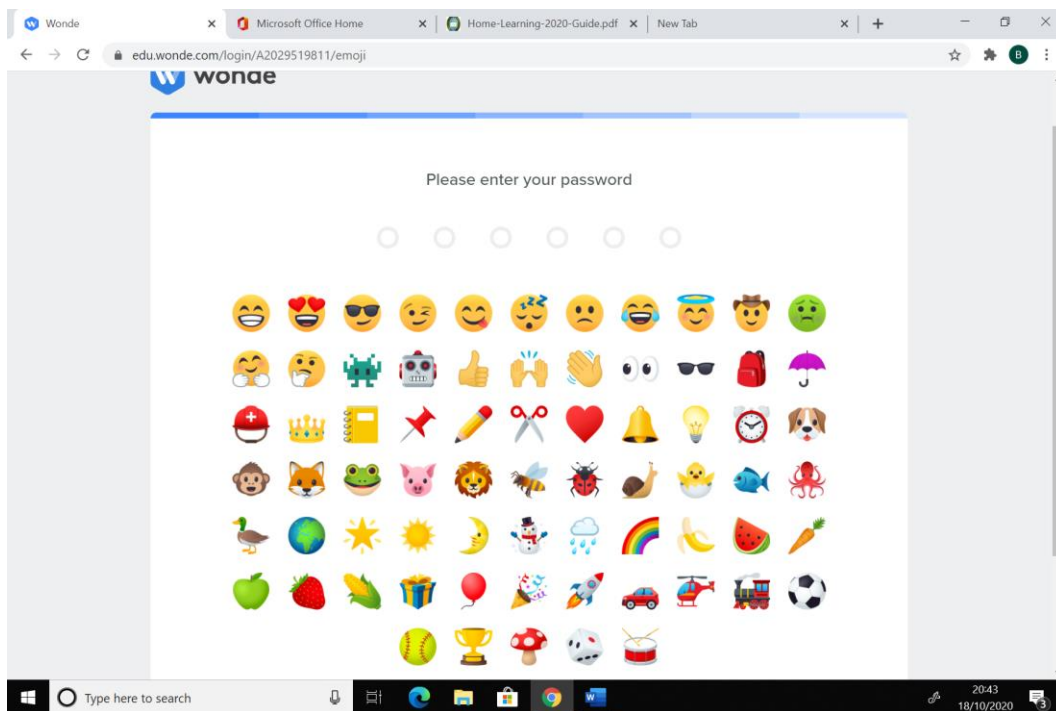

The Government announced in June that its intention was for every child to return to school in September 2020. However, it is also clear that the Pandemic is not yet over, and that during this academic year a Local or National Lockdown may still occur. Even if this doesn't happen and school is still in session, you still may need to self-isolate if you experience coronavirus symptoms or if someone you have been in close contact does. Many of you received work to complete during the lockdown between March and July via Google Classroom. Since then, the system has been developed; if you are out of school for any reason this year, you will be able to access high quality learning which matches the curriculum taught in school more easily. As we know many of you share devices (computer desktops, laptops or tablets) with your siblings, your learning will be available on demand – you can access it when and where you need to. Please note you need to know how to access your Google Classrooms even if you are in school fulltime as homework information will be provided using Google Classroom.

Please contact school if you have no access to ICT and we will try our best to support you.

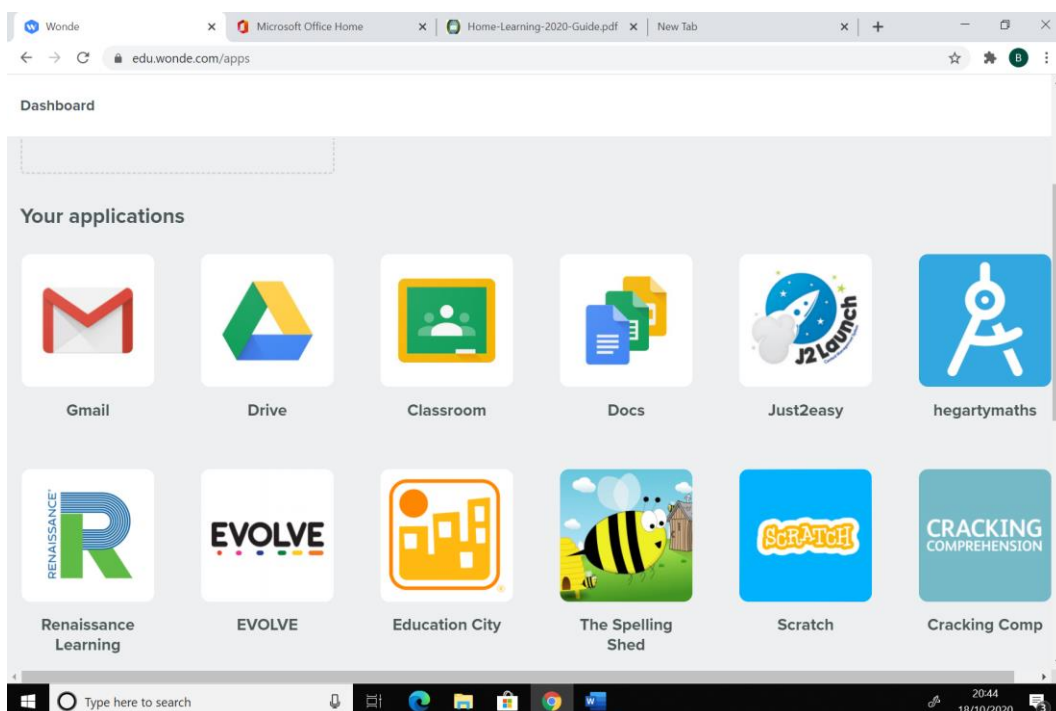

How to access Google Classroom

Go to www.wonde.com, click 'Login' and then 'Student'. Enter the school postcode BD9 6RB to quickly find our school account. Then log in using your Emoji password. (If you have forgotten it, please ask your class teacher for a copy).

Once you have logged in, click on the 'Classroom' shortcut on your dashboard.

This will then show you all of the 'Classrooms' attached to your user details:

Rg – this is where you will have regular communication from your class teacher, including a weekly breakdown of your timetable and where to find the work you will need to complete

Ma – this is where your Maths work will be set (including homework)

En – this is where all English work will be set (including homework)

Hu – this is where Active Learn work will be set (including homework)

Mf - this is where Modern Foreign Languages work will be set (including homework)

Rs - this is where RE work will be set (including homework)

Co - this is where Computing work will be set (including homework)

Work will either need to be completed online OR (if you have a printer) completed on sheets and returned to school. Paper-based work can either be photographed and emailed to teachers, uploaded to the Google Classroom assignments or sent into school. Any paper-based work has to be quarantined for 72 hours before teachers can assess it.

Please look at the Rg Classroom by 9.00am each day where you will find information about what you need to complete. Please also type a comment in the Rg comment box to let your class teacher know you have seen the work you need to do.
